Industry Business
Development Manager
GT Manufacturing Institute
Office: 404.385.4950
Cell: 404.630.1430
Email: tina.guldberg@gatech.edu

Taxi Information:

If you need a taxi to or from the airport, please call Checker Cab at 404.351.1111.
At Atlanta's Hartsfield-Jackson International Airport, follow the signs to the Taxi Stand Area.
At the MaRC Building, give the meeting location address above as your pick-up location.

Parking & Transportation on the Georgia Tech Campus:

Visitor parking on the Tech campus is very limited and at a premium. There is a small visitor parking lot next to the MaRC Building (Area 4), which is located at the 4-way-stop intersection of Ferst Drive & State Street. The parking charge is \$1.50 per hour. You should only park in the designated visitor area(s) to avoid being ticketed. If you would like a campus map for additional parking information, please contact Ms. Martha Miller at 404.894.0033.

If you are staying at the Georgia Tech Hotel (at the corner of 5th Street & Spring Street), the quickest and easiest way to get to the MaRC building is by taxi (the hotel's taxi stand is can be found at the entrance to the first floor lobby).

Alternatively, you can take the Tech Trolley from the Georgia Tech Hotel to the MaRC Building. The Trolley runs at 5-10 minute intervals all day and the route map can be found here:
<http://pts.gatech.edu/ride/PublishingImages/trolley%20and%20rambler%20with%20clough%20extension.jpg>.

From the Georgia Tech Hotel to the MaRC building, access the Trolley stop on 5th Street in front of Moe's restaurant (heading west). Exit the Trolley at the Hemphill Avenue & Ferst Drive stop (the MaRC building ground level entrance will be directly across the street). The Trolley driver will announce each stop on the route, and can answer any questions you may have.

Directions to GTMI from Atlanta Airport:

If you are driving:

- North on I-75 or I-85 toward Atlanta. (At the airport, I-85 North)
- I-75 and I-85 will merge
- Exit at 10th Street/Georgia Tech (Exit 250)
- Left on 10th Street
- Go to the 5th traffic light (about 3/4 mile)
- Left on State Street
- Go to the 4-way stop sign which is at Ferst Drive & State Street
- Go straight through the intersection & take a Left into the Area 4 Visitor's Parking lot
- From your car, walk west on Ferst Drive (1 block). We are the 4-story building on your Left at 813 Ferst Drive & Hemphill Avenue.

If you are taking MARTA rapid rail:

- There is a MARTA rail station in the airport (follow signs)
- Board any train heading North
- Travel to the Midtown Marta Station (N4)
- Take the Tech Trolley (located at the rear of the Midtown Station on Peachtree Place) to the corner of Ferst Drive and Hemphill Avenue
- MARC is located at 813 Ferst Drive, N.W. & Hemphill Avenue

For MARTA rail information please see <http://www.itsmarta.com/rail-schedules-or-route.aspx>

Accessing the GT Wireless Network:

During the EAB meeting on Oct. 17, you will be able to access the GT Wireless Network from your personal computer. Prior to our meeting today, you were emailed an individual user account from our Information Technology Manager, Mr. Darryl Dirickson (404.894.9383), that included your 1) GT username and 2) the password for your account - 1GTMi234 (this password is cap sensitive). This will allow you to access the Georgia Tech LAWN (Local Area Walkup & Wireless Network).

To access the GT wireless network in Windows 7 use the steps below:

1. Click on the Network Manager icon (looks like little stair steps) in the System Tray (located in the lower right-hand corner).
2. You should see a listing of GT networks (specifically "GTwpa", "GTwireless", and "GTvisitor" at least).
3. Click on "GTwpa". Ensure that "Connect automatically" is checked and click the "Connect" button.
4. A box will pop up asking for your GT Account credentials. (Use the username and password that was set up for you)
5. After entering your credentials, another box will appear explaining that the security certificate cannot be verified.
 - A) Click the arrow box to view the "Details".
 - B) Ensure that the "Radius server" field reads: gtwpa.lawn.gatech.edu
 - C) Ensure that the "Root CA" field reads: AddTrust External CA Root
 - D) Click the "Connect" button.
6. You should now be connected to GTwpa. Windows may ask you to set a "Network Location". For this, select "Public network".
7. Verify your connection to "GTwpa" by clicking on the wireless icon in your system tray.

If you are using an iPad please visit <http://www.lawn.gatech.edu/help/gtwpa/ipad.html> for instructions. If you experience any issues connecting to GT LAWN feel free to contact Mr. Dirickson at 404.894.9383 during your visit.

You can also go to <http://www.lawn.gatech.edu/help/gtwpa/> for detailed information on how to setup your laptop or iPad.
